

Cordless&Cord Hair Straightener Brush

Power Heating Function

- 🌡️ 120°C/140°C/160°C/180°C/200°C/220°C
- 🔥 Heating speed : maximum 90W heating, comb teeth reach 185°C in 4 minutes
- 🔋 Battery life: 30-80 minutes (varies with different set temperatures)
- 🔋 Battery capacity: 6000mAh (3000mAh*2@3.6V)
- 🔌 Charging time: 80 minutes @Max 27W

Other Features

- ⚡ 100 million negative ions lock in moisture for vibrant shine and feather-soft, silky hair
- ✓ Ceramic coating seal the cuticle layer, restore hair shine
- ✈️ Can be carried on the plane the battery is removable also have airplane mode switch
- 🔌 Automatic standby/shutdown for safe power and safety
- 📺 LED digital screen real-time display of temperature and power
- 🔌 Two use mode cordless mode for on-The-go
Cord mode for in-house (external 65W power adapter)

Product Overview

This product is a rechargeable electric heating hair straightener brush ,built-in lithium battery and supports fast charging technology; It can be used wirelessly on battery power or externally powered; It is both portable and versatile, and can achieve constant temperature straightening, curly hair and ion hair care functions, suitable for home and travel scenarios.

Handheld Fan

Power Supply

- ⌚ Maximum battery life of 12 hours, charging time of 3.5 hours
- 🔋 18650 2600mAh battery, supporting charging while discharging

Function

- ✓ It has a small size 112.6*37.2*43.3mm, and a lanyard hole design, making it convenient to carry when going out
- ❄️ Five wind speeds, maximum rotation speed 16000RPM, wind speed upto 9m/s
- 📺 Digital LED displays wind speed and battery level

HF06 Soft Wind Silent Desktop and Portable Dual-Function

- 🌀 **Blade Type:** 12mm with 7 blades. Maximum rotational speed: 2650 RPM. It has a large air volume and provides a gentle feel.
- 🔋 **Battery:** 21700 5000mAh/10000mAh, Long battery life: Minimum mode 37 hours (5000mAh), Maximum mode 6 hours (5000mAh)
- 🌀 **4-speed wind function + natural wind mode:** Low speed for quiet sleep, high speed for rapid outdoor cooling. The low wind speed is 1.5m/s, with noise lower than 25db. The wind speed is no less than 6 meters per second and the noise level is no higher than 45 decibels.
- ⌚ **Timer function:** You can set the device to shut down at 1,2,3,4,5,6 hours intervals.
- 🌀 **Optional features:** Optional rotation (can rotate without external power supply) charging base. 120 degrees/90 degrees/60 degrees/30 degrees multi-angle automatic swivel; suitable for various scenarios.
- 📐 **All-scenario:** 180-degree folding for easy portability when going out. The angle can be adjusted when placed on the table. It has a neck-hanging or handheld design.
- ⚡ **Charging:** Fully charged in less than 2 hours; 5 minutes of charging provides usage for 3/6 hours (5000/10000 mAh, minimum setting)
- 🔌 **Battery charger functions:** 35W/45W input/output. The portable cable is equipped with USB-C charging function.

HF08 High-speed variable-frequency handheld "Power Edition"

- 🌀 **Large cooling pad:** 36mm ultra-large diameter ice application area, designed to closely fit the human body's contours, providing rapid cooling and relief in hot outdoor environments.
- ⚡ **Super powerful performance:** 50mm air duct, 12V/14000 rpm turbine power, The wind speed is up to 5m/s;
- 🌀 **Ultimate Experience:** Optimized three-phase motor, high balance and no vibration.
- 📐 **All-scenario:** Adjustable angle, suitable for neck-worn, table-mounted or handheld use. The neck-mounted fan is gentle and does not cause any disturbance.
- 🔋 **Battery:** 5000mAh, supporting up to 36 hours of low-power battery life. 10000mAh, supporting up to 72 hours of low-power battery life.
- 🔌 **Battery charger functions:** 35W/45W input/output. The portable cable is equipped with USB-C charging function.

DF01 Ultra Quiet Desktop

- 🌀 **Large fan blades:** 138mm/5 blades, the front mesh screws can be removed; large air volume, gentle feel.
- 🌀 **4-speed wind function + natural wind mode:** Low speed for quiet sleep, high speed for rapid cooling with a low wind speed of 1.5m/s, noise less than 22db; High speed operation with power supply, wind speed not less than 5m/s, noise not higher than 45db.
- ⌚ **Timer function:** You can set the device to shut down at 1,2,3,4,5,6 hours intervals.
- 🔋 **Battery:** 21700 5000mAh/10000mAh, Long battery life: Minimum 49 hours (10000mAh), Maximum 6 hours (10000mAh)
- ⚡ **Charging (with built-in battery version):** Fully charged in 2.5 hours; 5 minutes of charging provides 1 hour of usage (at the lowest setting)
- 🌀 **Wind direction:** Manually adjust up and down within 0-90 degrees, and automatically tilt left and right at 120 degrees/90 degrees/60 degrees/30 degrees.
- 🌀 **Fan head remains the same, but there are multiple base models:** Battery-powered version, rechargeable battery adapter replaceable version

CF03 All-function Camping Tent Fan

- 🌀 **Scene:** Ground support+Tent suspension support. Foldable for space-saving and quick.
- 🌀 **Durability:** Robust outdoor structure, manual vertical adjustment, manual up-down adjustment from 0 to 90 degrees, left-right multi-angle automatic swivel ranging from 120 degrees to 90 degrees, 60 degrees, and 30 degrees.
- ⌚ **Timer function:** You can set the device to shut down at 1,2,3,4,5,6 hours intervals.
- 🌀 **Large fan blades:** 165mm/9 blades, the front mesh screws can be removed; large air volume, gentle feel.
- 🌀 **4-speed wind function+natural wind mode:** Low speed for quiet sleep, high speed for long-distance outdoor blowing/fast cooling. Low speed: 1.5m/s, noise less than 22db; High speed: not less than 7.5m/s, noise not higher than 50db.
- 🔋 **Battery:** 21700 10000mAh/20000mAh, Long battery life: Minimum mode 100 hours (20000mAh), Maximum mode 4 hours (20000mAh)
- ⚡ **Power bank functions:** 35W/45W input/output for the C port;

AI Note Solution

- 📱 **Equipped with a 4-color 2.53-inch E-ink screen** that statically displays images and text. Content can be customized and updated via mobile App, supporting scenarios including staff badges, personal info display, IP character showcase and custom pattern presentation. The device supports lanyard attachment and magnetic adsorption for mobile phone mounting.
- 👉 **One-touch recording function.** The App transcribes audio into text meeting minutes, with built-in AI for document compilation and analysis; LED indicator lights show real-time recording status.
- 🔊 **Dual-microphone array** integrated with acoustic echo cancellation and noise reduction algorithms, delivering enhanced voice pickup in complex environments with a 5-meter effective audio capture radius.
- 💾 **Offline audio files stored on TF card;** high-speed Wi-Fi mode transmits files to the App for intelligent analysis and summary.
- 🗣️ **Customizable AI agent avatar** for voice interaction, serving as an AI assistant and enabling emotional communication.
- 🔋 **500mAh built-in battery** with microamp-level ultra-low-power sleep mode: up to 60 days standby time, and 30 hours of continuous working duration.
- 📶 **Maintains persistent network connection** via Bluetooth Low Energy (BLE) pairing with mobile phones for further power consumption reduction.

AI badge

- 📺 **1.8-inch color screen** capable of displaying IP characters and animations, and presenting dynamic facial expressions during AI conversations; content can be customized and updated via mobile App.
- 📷 **1-megapixel camera** that effectively identifies real objects and surrounding scenes to enable AI analysis and interactive responses.
- 🔊 **Built-in speaker and microphone** integrated with acoustic echo cancellation and noise reduction algorithms, delivering clear audio pickup in various environments and smooth voice interaction.
- 🔋 **Equipped with a 2000mAh built-in battery,** supporting TF card storage and real-time recording.
- 📶 **Compatible with Bluetooth Low Energy (BLE),** Wi-Fi and 4G communication, enabling real-time network interaction both indoors and outdoors.
- 🎮 **Widely applied in emotional companionship.** IP character interaction, and communication for anime & ACG enthusiasts.
